Ko te manu i kai te miro, nōna te ngahere, ko te manu i kai te mātauranga, nōna te āo!

Nā wai te miro, he aha te mātauranga?

*The bird that eats of the miro his is the forest, the bird that eats of higher knowledge, theirs is the world! For whom is the Miro, what is higher knowledge?*

The Body Of Knowledge 11 covers the grounds of Mātauranga Māori. What is Mātauranga Māori? What are the expectations for YOU? What training is available for you to complete YOUR journal? Are there other avenues that I could take upon myself?

Professional registration has landed and now we scurry about in anticipation of training for the hundreds that have registered. Who knows where Mātauranga Māori sits within the framework. Once you have a good read, you may find that it is tantamount to every part of it!!

The session will improve the limited understanding of what Mātauranga Māori is using various aspects within Te Ao Māori for all to discuss and provide solutions. Training and continued professional development are integral parts of re-registration. What training are you prepared to take in terms of Mātauranga Māori – Whakatata kia tina Haumi e, Hui e, Taiki e!
